Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 16-40 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims fail to include a statutory class of invention and are thus nonstatutory.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Liquidseats Article.

The applicant argues that the new limitation of charging a second transaction fee to the credit card of the purchaser associated with the accepted offer, wherein said second transaction fee is paid to the entity, is not taught by the prior art. The examiner interprets the entity to be the Liquidseats and thus it would have been obvious for one skilled in the art at the time to have added a service charge to the model of the prior art.

The applicant argues that that the new limitation of charging a transaction fee to a credit card of said purchaser associated with said accepted offer, wherein said transaction fee is paid to the seller; arranging for delivery of said one or more tickets from the seller; validating said one or more tickets, and if valid

Art Unit: 3693

contacting the purchaser for pickup; and making the purchased ticket available at a location associated with the entity for pickup by the purchaser is not taught by the prior art. It would have been obvious for one skilled in the art at the time to have added these steps as ticket delivery and assurance are added value steps apart of ticket reselling.

The applicant argues that the new limitation where if said selling price is in legal conformance displaying the selling price etc, would have been obvious for one skilled in the art at the time as motivated by the need to comply with state laws and the like. Complying with state laws is routing to those in the field of commerce.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
